THE JOY OF

WATER

Oriss®

PLEASURE BATHING

Oriss products are offered with a variety of performance-driven systems that are engineered to meet your particular demands. Whatever your needs, Oriss fittings provide the perfect solution. For a completely coordinated design presentation, select models integrate with other products in the range to create a unified look throughout your entire **bathroom**.

Faucet Technology

Cartridges

The heart of every faucet, the cartridge is responsible for controlling water supply.

- Respite cartridges are 5 lacs cycle tested to give a longer & trouble free operating life of upto 20 years (considering 60-70 operations per day)
- Wide angle of lever provides ultra comfort & flawless, smooth operation.
- our cartridge spindle is made of brass instead of plastic, to avoid breakage.
- Works smoothly even at high temperature (85 degrees) & various pressure conditions (0.5-5 bar).

Aerators

Devices that mix air with water to give a soft and splash-free flow

- Our integrated honeycomb structured aerator provides lime buildup protection.
- Integrated anti-clogging dome screen of the aerator filters sediments and dust particles.

Chrome Finish

Upper shiny protection layer provides a mirror finish to every faucet.

- High plating thickness (Nickel: 10 microns and Chrome:0.3 microns) provides tolerance to extreme climate and water conditions.
- 450+ hours of salt spray test makes our finishes durable and corrosion resistant.
